

Care. Protection. Quality.

The Detia Degesch Group is a medium-sized, internationally leading corporate group in the chemical industry focused on solutions in post-harvest pest control. With a team of approximately 780 employees around the world, we distribute our products into more than 120 countries.

For our headquarters in Laudenbach in the Rhine-Neckar region we are looking for a

Project Lead (m/w/d) Group ERP

Your Tasks

- Lead the group-wide implementation of an adequate ERP system within Detia Degesch Group
- Be the head of the international project team aligning with external implementation partners
- Contribute to harmonized processes by triggering, moderating and finalizing user requirements and potentials for efficiency enhancements
- Evaluate best practice within the system and interfaces based on identified business opportunities
- Support in deciding on the adequate system to be chosen
- Ensure proper execution of the overall project plan including testing, documentation, training, cut-over and hypercare, plan and coordinate the roll-out phase and adhere to planned budget and schedule
- Organize to document local process deviations
- Establish necessary structures to transfer project activities into a supporting ERP organization
- Be the contact person for internal and external project stakeholders regarding the ERP system and the related business processes

Our Expectations

- **IT or business administration background:** successfully completed studies in business informatics, business administration, industrial engineering or similar
- **Project professional:** proven track record of successful implementations of ERP systems, methodological competence in project management and agile methods, focused to deliver on-time and on-budget, knowledge of the chemical industry and/or service industry
- **Process knowhow:** Being acquainted with process flow visualization, state-of-the-art ERP solutions, especially SAP S/4 HANA and Microsoft Dynamics, and used to lead technical analysis into efficient decision-making
- **Communication and cooperation:** strong communication skills and ability to align different views into one common picture with having possible technical solutions on your mind. German and English language skills are mandatory, Spanish advantageous.

Our Offer

- Collaborate with engaged team members across the world
- Report to the sponsor in the Executive Committee
- opportunity to develop the project lead function into a global line organization responsibility
- appropriate remuneration package
